25X1

1. There has been no great incidence of polio in Sofia this year, although a large number of new polio cases has been reported at Vratsa (N 43-12, E 23-33) and at Plovdiv. Thirty new cases of polio were reported at Vratsa during May and June 1954, and 10 new cases were reported at Plovdiv during the first two weeks of July 1954.

2. The incidence of polio in other parts of Bulgaria is reported as normal.
